

# EdenSol

SOLAR THERMAL WATER HEATING SYSTEM

The EdenSol solar thermal hot water package is made simple by combining all the components required into an easy to specify and purchase kit, containing all the necessary solar components needed for a standard installation. Each component has been carefully selected for its quality and suitability to the UK climate.

With a range of roof mounting options the Edensol solution has an answer for every solar water heating requirement.

- Complete solar hot water package – including 4m<sup>2</sup> collector kits, heat transfer system, full range of installation accessories, solar flow and return coil, ClubHE 18kw condensing system boiler and 215L solar unvented cylinders.
- Flexible installations – Choice of roof mounting options for slate, tile or flat roofs
- Separate control and pump station allowing flexible and convenient installation in relation to the cylinder.
- 25 year solar cylinder warranty.
- 10 year solar collector warranty.
- Easy to specify
- Delivered direct to site
- Next day delivery (subject to conditions)
